Team,

I talked to Tom at Watson/Actavis today to inquire if this was sufficient. He indicated it was.

Tom,

Excessive Order Monitoring Process at Selection by the warehouse

- During the selection of product, selectors have the ability to question any quantity requested.
- Questions will be directed to Pharmacy Procurement and ultimately to Pharmacy Compliance for tracking and investigating purposes.
- All controlled substances will be audited for accuracy on product and quantity prior to shipment to stores.

Excessive Order Monitoring Process for Maximum Order Quantity

- Maximum pick quantity is drug specific.
- Maximum pick limit is established based on historical aggregate data and coded prior to the selection process.
- Maximum pick limit review by drug for accuracy of limit is completed at the very least quarterly.

Acknowledgement Form completed.

Please contact me for questions.

**Subject:** Follow-up

Hi Scott,

Pursuant to Mary's email on Friday, May 3d, I just wanted to follow-up with a question and a request relative to your SOM program. After reviewing your Excessive Order monitoring policy, I noticed that there was reference to "maximum order quantities" that are established for locations. Can you provide insight as to how these levels are established (i.e. compared to similar pharmacy locations in geographic area, etc.)? I really appreciate your insight.

Additionally, since the Actavis acquisition, we have been requiring all of our new and existing customers to sign a compliance acknowledgement form, attesting that they maintain a, SOM program in accordance with federal regulations. I would greatly appreciate it if you could review and have the document signed and returned (scanned image is fine) to me as soon as practical.

I appreciate your time and effort in this matter. Please feel free to reach out with any questions that you may have.

Regards,

Tom
